SKILLS

- **Languages**: C/C++, Python ,Java
- **Frameworks & Libraries**: Matplotlib, Django, Flask, HTML and CSS
- **Tools & Platforms**: M SQL, MongoDB ,Git, GitHub, Linux
- **Core CS Fundamentals**: DBMS, OS, CN, SQL, OOPs, COA, TOC
- **SoftSkills**:TimeManagement,Leadership,Problem-Solving,Adaptability,QuickLearner

PROJECTS

Digital Marketing Chatbot| GitHub Mar2025-Mar 2025

- Created a basic chatbot interface using HTML and CSS for the frontend, allowing users to chat in a clean and responsive design.
- Connected the chatbot to the Gemini API through Python, enabling it to understand questions and provide intelligent answers.
- Built the backend in Python to handle requests, process responses from the API, and display them smoothly in the chat window.

  Tech stack: Html, CSS, Python.

Sales Store Dashboard | LinkedIn Dec 2025-Dec 2025

- Built a Power BI sales dashboard for a retail store, including data cleaning, modeling, DAX calculations, and visualization design**.**
- Delivered key insights on sales performance, profit trends, average delivery days, product-wise and region-wise contribution, enabling data-driven business decisions.

  Tech stack: Power BI Desktop, Power Query, DAX, Excel, Data Modeling, Data Visualization

Personal Library Tracker| GitHub Mar 2026-Mar2026

- Developed a Personal Library Tracker web app using the MERN stack .
- Implemented secure user authentication and CRUD operations for managing books, reviews, and reading status.
- Designed a responsive frontend with React and Material-UI, including search and filter functionality.
- Deployed the application with MongoDB Atlas for storing data.

  Tech stack : ReactJS , JavaScript, NodeJS, MongoDB

TRAINING

Cipher School (MERN) June 2025 -Aug2025

- Completed a 2-month intensive MERN Stack training, gaining hands-on experience in building full-stack web applications.
- Built three projects using React.js, Node.js, Express.js, and MongoDB with clean, modular, and optimized code
- Deployed projects on Vercel , Render and collaborated using Git/GitHub.
- Tech stacks used: React.js, Node.js, Express.js, MongoDB

CERTIFICATES

- MERN – Cipher School |**Link** April2025
- Cloud Computing (IIT-KGP) |**Link** July 2024
- C++,DSA (iamNeo) | **Link** May 2024
- C Programming (iamNeo) | **Link** Dec 2023
- Hack with Vertos (Hackathon) | **Link** Sep 2023

ACHIEVEMENTS

- Solved coding problems across Leet Code ,GFG & Hacker Rank, sharpening problem-solving skills. Nov 2025
- 3rd rank in Hack with Vertos(Group Hackathon). Sep 2023

EDUCATION

Lovely Professional University August 2023-present
Bachelor of Technology-Computer Science and Engineering; ***CGPA:*** **7.15** Punjab ,India
Kosi college June 2021- March 2023
Intermediate: ***Percentage:64.4%*** khagaria , Bihar
New Holy Ganges Public School April 2020-2021
*Matriculation;****Percentage:73.4%*** khagaria , Bihar
